A R T I S T RESIDENCIES

THE ARTIST RESIDENCY is an interdisciplinary, in-depth project that demonstrates how the arts can inspire uniquely creative and meaningful learning experiences for a school community. Artists, principals and teachers collaborate to create an educational experience that transcends the typical classroom experience by exploring multiple-intelligence, hands-on ways of learning. Students learn to express themselves creatively while teachers are exposed to innovative strategies for implementing the Core Curriculum Content Standards.

The Artist Residency takes place over a two to six week period. Participating artists-in-residence are carefully chosen for their artistic talent and innovative programs as well as their ability to teach and relate to young people. The artists are committed to the interdepartmental approach, combining more than one academic discipline into the activities of the residency, and work closely with school administrators and faculty to design the residency through a pre-planning meeting and teachers' workshop. Core groups consisting of approximately 100 students form the nucleus of the residency. Ten-day residencies range in price from \$4200 to \$6500.

CIRCUS AROUND THE WORLD WITH CIRCUS MINIMUS Residency led by a former Big Apple Circus instructor has students study juggling, clowning, tumbling, partner acrobatics, human pyramid building, tight-wire and much more. Circus Around the World is an integrated curriculum that allows students to research culture, history, social studies, language arts and geography of a chosen country, while acquiring circus skills. This residency explores anatomy and physiology as it relates to a particular skill. Students will learn how the whole body and the focus of the mind contribute to movement, choices and abilities in any activity.

CircusYoga offers a cooperative learning environment. Through this exploration each class will co-create a performance act. The culminating experience is a CircusYoga Celebration open to the whole school community! Erin Maile O'Keefe; Grades K-8

NEW: REAL BEAUTY: UNCOVERED – LET’S BE REAL

"Real Beauty: Uncovered" provides schools with a comprehensive "Let's Be Real" educational program, designed to help students develop an authentic sense of their own beauty and value regardless of society's constraints and peer pressure. It promotes the understanding that beauty comes from within. In a world where touched-up and altered images in the media distort our perceptions, "Real Beauty: Uncovered" challenges students to accept themselves for who they really are. Through this lesson of self-acceptance, students are given the tools to boost their confidence, deal with bullying, eating disorders, etc., and appreciate others as well. This program is made up of a series of classes for students, an interview/photography session with each participant and a culminating event for students and the community as a whole. Dani Allen; Grades 4-12

SPIRITREE Spiritree residencies draw on the power of art-making to tap the many talents and intelligences of students. During 10 day residencies, the Spiritree artists guide students through thematically defined, curriculum related residencies which culminate in

installations and performances featuring students' original masks, sculpture and processional puppets in papier mâché. Spiritree also offers mural residencies where the student-artists are the protagonists from the planning stages to the completion of a lasting work of art for their school. During 3 to 5 day mini-residencies, the students create 2-dimensional artwork exploring a wide variety of materials and techniques. At the conclusion of a mini-residency, the students act as docents, sharing their artwork and learning experience with the school community: students teaching students. The Spiritree artists plan with teachers to choose themes and develop projects that are appropriate and significant for the specific setting. Marco Giammetti and Carol Hendrickson; Grades K-12

WE ARE ALL ARTISTS A residency with muralist and art educator Caren Frost Olmsted unleashes the artist in each student that participates in the creation of a stunning, theme driven mural. Every student will get to participate in the painting (no matter what their skill level) with the end result of knowing that they have left a permanent artistic legacy behind. Olmsted will design a mural tailored to the age level and based upon themes provided by the school, such as local history, landscapes and community ideals. The duration of the project will be determined by the size and scale of the walls to be painted and the number of stu-

dents to be included. Once the mural is complete, Olmsted will do any necessary touch-ups, as well as seal the wall for longevity and easy maintenance. This residency is also an excellent opportunity for parent volunteers to participate in a special school event. Caren Frost Olmsted; Grades K-12
